FOLDING SQUARE SPOUT WATER TAP

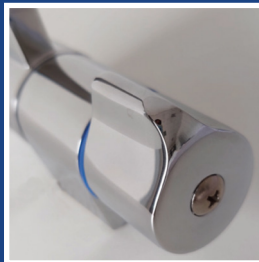

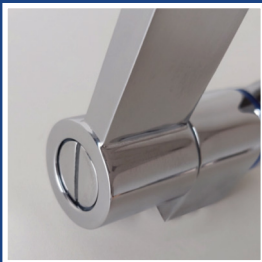

10580

NEW The combined success of our Folding Ceramic Family and our Square Geometric Family, we introduce a combination of the two families, the **Piatto!** Built on the platform from the Folding Ceramic Family, we have added the square spout from the Geometric Family and created the Piatto. A ceramic valve cartridge, for drip free service, is mated with a chromed brass knob for precision performance.

The combined soft but definite shape, make the Piatto **suitable for most modern interiors** of today's boats.

- ✓ **Water Connection:** 3/8" BSP-M threaded shaft, 1/2" NPS-M adapter included
- ✓ **Material:** Solid brass with chrome finish body, chromed brass knob
- ✓ **Mounting Hole:** 5/8"
- ✓ **Shipping Weight:** 3 lbs.
